

New 5-blade propeller

Certified FLAIR-2

EASA certified silent propeller
for towing aircraft

ROBIN DR400/180 R

New Version 2018

Certified FLAIR-2

EASA certified silent propeller
for towing aircraft
ROBIN DR400/180R

New
Version
2018

>>> Description

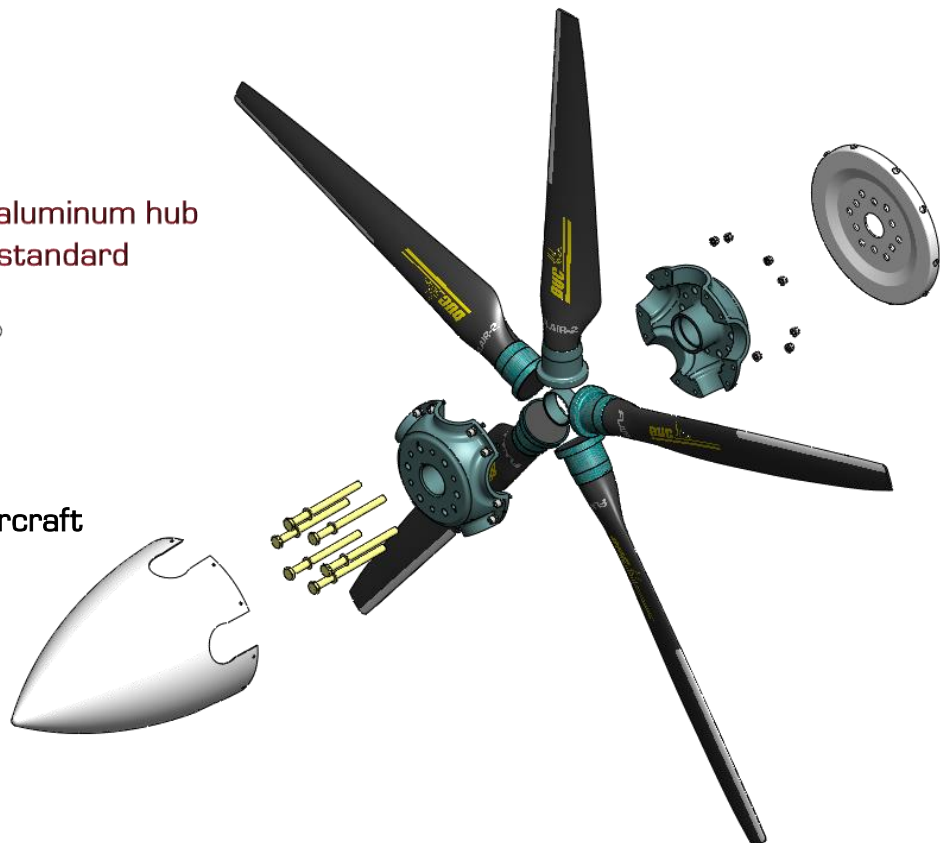

Innovative design for a strong reduction of noise pollution
High aerodynamic efficiency combined with acoustic optimization
Carbon composite blades & Aluminum hub - Low weight & Inertia
High precision manufacturing

>>> Characteristics

- CS-P certified with EASA
- 5-blade Tractor
- Integrated 20mm spacer in the aluminum hub
- SAE2-AN8 & SAE2-AN6 fixation standard
- (Ø66") Ø1680mm
- Shielding leading edge in Inconel®
- Weight: 11.5kg

>>> Application

- STC for ROBIN DR400/180R aircraft with Lycoming O-360 engine
- STC also apply to:
ROBIN DR400/180
DR300/180R
DR 400/180S
DR400/160
DR 400/160D
