

New propeller

FLASHBLACK-2

In-Flight Adjustable propeller
Pusher

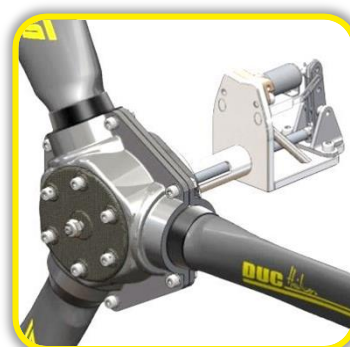

FLASHBLACK-2

In-Flight Adjustable propeller Pusher

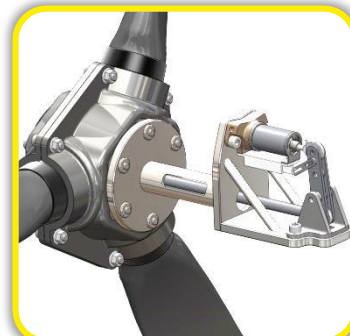

Description

In-flight adjustable propeller with **carbon/titanium blade** and **carbon hub**
Propeller weight extremely low; Titanium bolts
 Management of the pitch by "Constant speed" box & Visual indicator in flight
 Wide range of pitch variation & Safety stops small/large pitch
 Optimized performance for all phases of flight
 Hydraulic power with manual or electric control
 Low consumption & noise reduction
 Innovative high-precision manufacturing

Characteristics

- Tractor; 3-blade
- Propeller weight: **6.8kg**
- Pitch angle adjustable, amplitude max. : 23°
- Compatible with hollow shaft engine (Rotax 912S, 912iS, 914)
- Diameters Ø1520 to Ø1900mm (Ø60" to Ø75")
- Shielding leading edge in Inconel®

Version

BASE: 3-blade Inconel FLASHBLACK-2 Left propeller (7.8kg)
 included Pitch indicator & Hydraulic setting wheel

6968€HT

CONSTANT SPEED: Hydraulic pump & Constant Speed box (+0.74kg) **+949 €HT**
